The HOBBS Collection - Chalon Heads for Direct Sale

Stamp collectors can be very private people. Sometimes only close friends – and stamp dealers – are aware of exactly what a collector is achieving. Over decades an important collection can be assembled slowly and carefully, without fanfare, by sourcing key items as they become available.

The HOBBS collection is just such an achievement. Discerning and selective purchases from NZ and across the globe have been quietly collated into a comprehensive Chalon Head collection, from SG1 to SG 142a.

Most stamps were acquired decades ago, including items from legendary collections such as Odenweller and Yeroc.

We have pleasure in presenting the HOBBS collection for Direct Sale at listed prices (no buyer premiums) in New Zealand dollars.

The seller is very realistic in his expectations. First in will buy – your price will not be inflated due to auction-style competition.

Ask for email scans if required. Spread payment over several months, just ask.

With best wishes,
Brian Rumsey (director).
